Frozen Wheatgrass Juice	Price
50 (minimum) x 2.25 / oz	112.50
100 x 2.15 / oz	215.00
200 x 2.10 / oz	420.00

Refrigeration is required for all fresh product! Keep at 38°F or less to keep fresh for at least a week.

If refrigerator space is limited, we recommend storing the product cut in ziplock bags or plastic-ware lined with paper towel. This helps absorb excess moisture. Only wash greens when you plan to eat them.

Like all produce, do not eat greens which have substantially discolored and have a spoiled smell.

- **All our freshly grown products are USDA Certified Organic by Natural Food Certifiers**
- **Wheatgrass requires a wheatgrass juicer.** Do not juice wheatgrass in centrifugal juicers or blenders.
- **Cool Cat® Wheatgrass Pet Treat**, a healthy treat for cats and other pets (dogs, birds, rabbits, mice, & lizards)!
- **Frozen Wheatgrass juice** is the next best alternative to fresh juice. Stores in freezer for up to 6 months!
